To whom it may concern,

I am proud to confidently offer my recommendation of Daniel Warner who I have known for almost 2 years. In my position at Higher Logic as Client Manager / Web Design, I had the privilege of training and mentoring Daniel in regards to web design, web development and best practices. Daniel has a brilliant analytical mind, and takes the time and effort to truly understand the how and why of what he is doing. He has proven to be a lifelong learner and continues to add more skills to his tool belt, further empowering him as a web developer. I have no doubt Daniel will continue to be successful on his chosen path, and any organization would be fortunate to have him on their team.
